

Thank you so much for all of your help over the semesters. You've been so nice to accommodate my test taking by going above and beyond. I know that's not required of you and I really appreciate it. You are my favorite teacher so far and even though I know my grades don't reflect it, I have learned two times more from your class than any other class. When reviewing for the final, I was astonished by how much I actually learned and my new found general awareness of accounting.

The chapter 14 problem on exam two is a good example of one of the many life lessons your class has taught me. I'm sure I will be using "The Getting Comfortable with Uncertainty Lesson" in my future career and everyday life. It's obvious that you care about a well-rounded education and its' real world applications. I was extremely excited/impressed when you had us discuss mortgage-backed securities and their impact on the Credit Crisis. The fact that you took class time to do that shows us the importance of being educated on all important factors that make up our economy and the important role our degree in business will hold.

Did I mention thank you?!

Summer & Fall 2012

5-6-13

Dear Shannon,

Thank you for an excellent semester! Thank you for the time and energy you have poured into this class and for your dedication to students. You truly care about my education and I appreciate that! Your course has been challenging, but I know I am fully prepared for future accounting classes. Thank you also for making class a relaxing and positive experience. You are always smiling and it put a smile on my face too! Have a great summer! Blessings to you and your husband.

5/8/13

Shannon,

I just wanted to say thank you for everything this semester. I can honestly say that I enjoyed your class. One of the main reasons I decided to come back to school was because I wanted to be challenged more on a daily basis. 327 provided me with that challenge. My "love" for accounting has definitely grown and I'm excited for the future. Have a great summer!

Thanks.

5/21/12

Shannon.

I am sitting down in my last few days in College Station to write a few notes to people who made a difference in my time here. I have known for a long time that I would be writing this note. I can very genuinely say that on the first day of Acct 327, I knew that you would be one of my favorite professors. We all learned what an asset actually was in your class, but we also got a really important picture that your profession is not who you are - it is simply something that you do. I had a blast in your class this semester; I was really glad for a chance to do that one more time. You have been an incredible encouragement to me. Know that your time at A&M mattered to me.

All my best.

SHANNON,

THANK YOU FOR TEACHING ME THAT SOMETHING WORTH HAVING IS WORTH WORKING HARD FOR. ACCOUNTING 327 IS NOT AN EASY COURSE, BUT IT TAUGHT ME THIS LESSON. IT WILL SERVE ME WELL AS I PURSUE LIFE AFTER GRADUATION. I AM GRATEFUL FOR THE INVESTMENT YOU HAVE MADE IN MY LIFE AND AM ENCOURAGED BY THE ENTHUSIASM AND CARE YOU BRING TO THE CLASSROOM. I KNOW YOU SINCERELY DESIRE YOUR STUDENTS SUCCESS. THANK YOU. TEXAS A&M HAS TRULY BEEN A BLESSING AND YOU ARE A PART OF THAT. THANK YOU,

- PPA

Shannon,

I wanted to say thank you
for teaching me this past semester
and the encouragement. I am excited
about PPA and I thank you for
your role in the decision. You should
have seen my face when I got the email!
Have a great summer!

Professor Knight,

I just wanted to take the time to say thank you for all that you have done for me. Not only did you take the time to write me a letter of recommendation, but you took the time to invest in my life. When I found out that the Accounting 327 teacher was teaching my 315 class, I was pretty upset. But little did I realize that your class was going to be one of my favorite classes in college. Your ability to convey accounting to your students is inspiring. You truly care about each student in your class, and you make accounting fun. I always looked forward to going to your class, which was awesome, but very abnormal for me. You were always so patient with me when I did not fully understand the material and you were always so willing to talk about life outside of school. Your class was refreshing. We need more educators like you, educators that truly care about student's growth as people inside and outside of the classroom. You have greatly impacted me, and I wish you the best of luck as you continue to educate students.

Sincerely,

P.S. I think if I took your class again, I could make an A haha
